Proposals and References

Proposal No. 1: Distribution of Surplus

The Company's basic policy is to use retained earnings toward research and development, capital investments, etc., necessary for the Company's growth. It is also part of this policy to maintain the Company's financial soundness in order to respond to changes in future management environment and prevail over challenging competition, and to pay out dividends, as a form of direct returns to shareholders, upon considering the Company's profit level for the fiscal year.

Specifically, the Company's annual dividend is (i) 33% of the consolidated operating profit, used as the base dividend amount, divided by the number of shares outstanding (excluding treasury shares held as of the fiscal year-end), or (ii) an amount necessary to achieve a 50% consolidated payout ratio, whichever is greater (in either case, rounded up to the nearest 10 yen per share).

Based on this basic policy, the Company hereby proposes the following year-end dividend per share for the fiscal year ended March 31, 2018:

- (1) Matters concerning allotment of dividends to shareholders and the total amount
480 yen per share of common stock, for a total of 57,660,369,120 yen
Because an interim dividend of 110 yen per share was paid out, the annual dividend for the fiscal year ended March 31, 2018 was 590 yen per share (consolidated dividend payout ratio of 50.8%).
- (2) Effective date of distribution of surplus
June 29, 2018

Turning to our digital business for dedicated video game platforms, digital sales were very good, especially on Nintendo Switch, which brought digital sales (see note) to a combined total of 60.8 billion yen (87% increase on a year-on-year basis).

Meanwhile, the Super Nintendo Entertainment System: Super NES Classic Edition proved to be a hit in every region, with sales totaling 5.28 million units, and we grew amiibo sales compared to the previous fiscal year, with approximately 10.30 million figures sold, while card sales hit approximately 5.80 million units.

In our smart-device business, we released *Animal Crossing: Pocket Camp* during this fiscal year to join *Super Mario Run* and *Fire Emblem Heroes*, which have both been available since before the start of the fiscal year. These applications are being enjoyed by many consumers globally. Our smart devices and IP related income was 39.3 billion yen (62% increase on a year-on-year basis).

In total, net sales reached 1,055.6 billion yen (115.8% increase on a year-on-year basis, and of which overseas sales were 794.4 billion yen or 75.3% of the total sales). Operating profit came to 177.5 billion yen (504.7% increase on a year-on-year basis). Ordinary profit was 199.3 billion yen (295.8% increase on a year-on-year basis), and profit attributable to owners of parent totaled 139.5 billion yen (36.1% increase on a year-on-year basis).

(Note) "Download Sales" has been renamed to "Digital Sales" as of the end of the fiscal year ended March 31, 2018.

(2) Financing and Capital Investments

No company of the Company group obtained financing, including share issuances, for the fiscal year ended March 31, 2018. The Company group made capital investments in the total amount of 13,082 million yen. The main investments were for research and development facilities.

(3) Issues to be Addressed

With the belief in our mission to put smiles on people's faces around the world through products and services, Nintendo will focus on expanding the number of people who have access to Nintendo IP (intellectual properties) by offering products that everyone can enjoy, regardless of age, gender, or gaming experience.

In accordance with this basic strategy, we will drive continual growth for Nintendo by expanding the dedicated video game business and establishing the smart-device business. For our dedicated video game business, we plan to keep our distinctive software-driven hardware and software business at the core of our operations, while actively investing resources in our unique platform business. We plan to expand our smart-device business into one of our major pillars of revenue, and in doing so, strengthen the foundations of the business, generate synergy with our dedicated video game business, and maximize business for Nintendo as a whole.

Alongside our gaming business, we are also collaborating with our corporate partners to actively leverage Nintendo IP through theme park projects, film, and merchandising. Through these efforts, we hope to pursue every possible business opportunity and add value to our company by actively offering Nintendo IP in a variety of different ways so that not only current users of our video games but all

consumers - including those who used to play our games but currently do not, and those who have never played our video games before - can experience Nintendo IP.

Consumers have been very receptive to the new concept introduced by Nintendo Switch as a home gaming system that they can take with them to play anytime, anywhere, with anyone. Looking ahead, we plan to leverage the favorable momentum in this fiscal year to reach an even broader range of consumers and expand the installed base of the hardware, guided by the above management strategy.

Specifically, we released *Nintendo Labo* in April as an offering of a new way to play, and then we are slated to release *Mario Tennis Aces* in June, as well as the latest entry from the popular series, *Super Smash Bros.* (temp.) within the year. We expect to release several hit titles from other software publishers as well. Then in September, we will begin offering the Nintendo Switch Online paid service to expand the online functionality of Nintendo Switch. Our goal is to take full advantage of the platform by continuously introducing compelling new software while further increasing sales of popular titles that are already in the market.

With Nintendo 3DS, we will continue to target an ever wider range of consumers. We will work to leverage the platform's rich software library and worldwide total hardware install base of over 72 million units and further expand sales of evergreen titles.

Our smart-device business is poised to grow with the release of new gaming applications including *Mario Kart Tour* and *Dragalia Lost*, alongside the applications consumers continue to enjoy that were released prior to this fiscal year.

We will continue to flexibly transform ourselves by adapting to changing times while constantly valuing the spirit of originality based on the belief that "the true value of entertainment lies in its uniqueness" - and will endeavor to continue providing products and services that people will be surprised and delighted by.
